5 YEAR ANNIVERSARY EVENT

Dear Surgeon,

We welcome you to join us for the BARIAlink 5-year anniversary event which takes place on **Saturday 5th of June 2021**. This unique series of five one-hour sessions takes place across 5 global locations in a single day and will facilitate active discussions on the most engaging patient cases submitted by the bariatric community.

Whether taking part in one session or all five, you'll benefit from shared experiences of some of the more challenging and complicated situations in bariatric and metabolic surgery and revisional procedures. The program has applied for CME-accreditation and gives surgeons an opportunity to learn about new and developing areas in this field through the experiences of real patient case studies.

If you're already an active member of BARIAlink, this is a great opportunity to celebrate the activities of the past five years. And if this is your first time attending, you'll learn about some of the most intriguing cases from more than 300 of those previously discussed, along with new topics prepared especially for this event.

To attend you'll need to register prior to the event. [Click here to register](#). We look forward to welcoming you all to this exciting day of learning and celebration.

Yours sincerely

Dr. Bruno Dillemans
Founder of BARIAlink

QUICK OVERVIEW OF THE DAY
